GROWTH OS

EVERY ROLE. EVERY HANDOFF. CONNECTED.

From prospecting to client growth
Acquisition · Payment gates · Delivery · Learning

14

DISTINCT POSITIONS

ONE CONNECTED TEAM

A WORKING MAP, NOT A FIXED POLICY

01 / Start with the Growth OS™

Discover, Diagnose, Design, Deploy, Optimise and Scale.

02 / Connect the team

14 editable roles mapped to the stage where each contributes.

03 / Follow the delivery workflows

Nine nested task workflows, handoffs, modules and approval gates.

04 / Make it yours

Edit text, move cards, reconnect lines and confirm policies.

START WITH ACQUISITION. KEEP THE AM INVOLVED.

SALES OR BUSINESS DEVELOPER

PROSPECT

Find and qualify the opportunity.

PREPARE

Audit → Strategy → Three-tier quotation.

MEET & AGREE

First meeting → Second meeting with signed materials.

ACTIVATE

Required payment → Delivery handover.

ACCOUNT MANAGER PARTICIPATES THROUGHOUT — NOT ONLY AFTER THE SALE

PROSPECTING / FIVE ROUTES TO THE FIRST MEETING

ON-GROUND VISITS	Visit relevant businesses and identify service needs.
RESEARCHED COLD CALLS	Review social channels first; call businesses with a genuine service need.
LINKEDIN SEARCH	Identify and approach suitable business prospects.
EMAIL CAMPAIGNS	Use email outreach to reach prospective clients.
PAID-MEDIA LEAD FOLLOW-UP	Call leads generated by PMP’s own media-buying efforts.

BEFORE MEETING ONE / RESEARCH, THEN PRICE

01 / AUDIT

Create a social media audit using PMP ChatGPT skill.md. Study the findings carefully before the meeting.

02 / STRATEGY

Prepare existing problems, proposed solutions and how PMP will fix them. Build the strategy after the audit.

03 / THREE TIERS

Prepare three quotation tiers from the strategy scope and verified market / historical prices, suited to industry and client class. The strategy skill has no pricing formula.

PRICING EVIDENCE: actual market ranges + previous prices + client industry and class. No invented amounts.

AUDIT PREPARATION / RESEARCH BEFORE RECOMMENDATIONS

INTAKE

Confirm scope, format, language and access. Check what the brief already answers; request only missing essentials.

RESEARCH

Review brief, Instagram, website, assets, competitors and category context. Record actual figures, quotes, dates and sources.

CONTRADICTIONS

Compare what the business claims with what the account, site and available offer actually show.

MEETING READINESS

Sales / BD studies the findings and solutions with AM involved; record what could not be verified before presenting.

THE FULL STRATEGY / 26 SECTIONS, SCOPE AGREED FIRST

01–04 / RESEARCH

Findings · Situation/audit · SWOT · Competition

05–09 / DIRECTION

Audience · Journey · Positioning · Objectives · Platforms

10–15 / CONTENT & VOICE

Pillars · Mix · Formats · Creative routes · Tone · Messaging

16–20 / ACTIVATION

Profile · Community · Creators · Conversion · Content series

21–24 / EXECUTION PLAN

30-day plan · Two-week sample calendar · 45 content ideas · Posting system

25–26 / MEASUREMENT

KPI framework · 90-day roadmap; executive summary is written last and placed first

Use all 26 sections for a full strategy; a scoped audit-only assignment does not require pretending the full strategy was completed.

THE QUALITY GATE / EVIDENCE, STRATEGY, THEN PRICING

LABEL THE EVIDENCE

Observed = directly verified. Interpretation = judgment. Recommendation = proposed action. Put source gaps near the front.

VERIFY BEFORE PRESENTING

Check numbers and quotations against source notes. Missing Insights, sales and ad data stay unverified. Public views alone do not prove boosting.

QUOTE THE PROPOSED SCOPE

The skill gives a strategy method, not a rate card. Build three tiers from scope plus verified market and previous-price evidence. Apply the agreed contract/payment terms separately.

Client strategy outputs: a detailed written document and an editable presentation, according to agreed scope and format.

MEETING ONE / EARN THE SECOND CONVERSATION

ONLINE OR OFFLINE

Arrive prepared with the audit, the strategy, three-tier quotation options and a clear explanation of problems and proposed solutions.

IF THE CLIENT IS CONVINCED

Request a second meeting. Prepare the agreed quotation and the printed signing pack. The Account Manager remains involved.

MEETING TWO / PRINT, AGREE AND SIGN

CLIENT BRIEF

Printed requirements and the client brief.

STRATEGY

Printed strategy aligned with the proposed work.

AGREED QUOTATION

Printed scope and agreed pricing.

CONTRACT

Printed contract governing the engagement.

CLIENT SIGNS ALL FOUR. Sales / BD prepares the pack; Account Manager is involved throughout.

PAYMENT GATE / SIGNING ALONE DOES NOT START WORK

SOCIAL MEDIA MANAGEMENT ONLY

100%

of the agreed contract amount paid before work starts.

CONTRACT INCLUDES OTHER SERVICES

50%

of the agreed contract amount paid before work starts.

Signature triggers the folder move out of Quotations. Signed materials plus the required upfront payment trigger delivery readiness. The remaining balance schedule is not specified here.

MEDIA BUYING / FEE BASED ON ACTUAL EXPENSES

MEDIA-BUYING FEE = ACTUAL MEDIA EXPENSES × 25%

EXECUTE THE PLAN

Calculate the fee after executing the media-buying plan.

USE ACTUAL EXPENSES

Use verified actual spend, not proposed or unused budget.

KEEP TERMS SEPARATE

The user calls this a 25% retainer. Do not treat it as the contract's upfront start-payment rule.

No fee amount is invented. Exact expense basis, taxes, media-spend funding and billing terms follow the agreement.

ONE SYSTEM. SIX CONNECTED STAGES.

The operating system stays constant. The industry module changes the journeys, funnels and KPI choices.

01 DISCOVER

Understand the business before acting.

02 DIAGNOSE

Find out exactly why growth stalls.

03 DESIGN

Design the growth plan before building.

04 DEPLOY

Execute with precision across channels.

05 OPTIMISE

Improve with data, every week.

06 SCALE

Scale what works into sustainable growth.

Sales / BD + AM lead acquisition: audit → strategy → quotation → two meetings → signed pack + payment gate → delivery. Discovery findings continue into the six-stage OS.

NEW CLIENT / OPEN THE COMMUNICATION CHANNEL

ACCOUNT MANAGER

After the client signs the contract, creates the WhatsApp group for project kickoff.

COORDINATE → BRIEF → ASSIGN → MONITOR

GROUP MEMBERS

- Client
- PMP owner
- Marketing Manager
- Other relevant project stakeholders

The PMP owner and stakeholders are group participants, not additional positions added to the 14-role organization map.

CONTRACT SIGNED / MOVE THE CLIENT FOLDER

BEFORE CONTRACT

PMP Drive / Quotations / [Client name]

AFTER CONTRACT SIGNED

PMP Drive / [Client name]

MOVE THE SAME FOLDER — DO NOT CREATE A DUPLICATE

Trigger: the client signs the contract. Sales or Business Developer moves the folder out of the main Quotations folder. It stands alone with the client's name, keeps its quotation documents and contains all subsequent client work.

CLIENT DRIVE / ONE HOME FOR THE PROJECT

CREATED BY

SALES OR BUSINESS DEVELOPER

Standalone folder = client name

[Client name]/
- Quotation/
- Start Strategy/
- Client Brief/
- Content/ → [month]/ → Calendar.pptx
- Design/ → [month]/ → Final approved designs
- Videos/ → [month]/ → Final approved videos

Add other folders when the agreed scope needs them.

THE ACCOUNT MANAGER / DISTRIBUTE, TRACK, GATHER

01 / CLIENT MEETING

Attend the meeting, collect requirements and write the client brief.

02 / TASK DISTRIBUTION

Send briefs to Content, Design and Editing; identify accountable task holders.

03 / EXECUTION FOLLOW-UP

Monitor progress, dates, missing inputs and comments until work is finalized.

04 / CLIENT PRESENTATION

Gather approved tasks into one PPTX, present to client and record final approval.

THE CONFIRMED APPROVAL & PUBLICATION CHAIN

1 / BRIEF	Account Manager meets client, writes brief and distributes tasks.
2 / EXECUTE	One accountable task holder executes each assigned deliverable.
3 / QUALITY	Content head / Design head review quality. Marketing Manager reviews video quality.
4 / INTERNAL APPROVAL	Marketing Manager approves after quality review; unresolved comments block this gate.
5 / ONE CLIENT PPTX	Account Manager gathers finalized work into one presentation and presents it.
6 / FINAL CLIENT APPROVAL	Client approves the presentation. Any rejection returns affected tasks for revision.
7 / SOCIAL PUBLICATION	Account Manager hands approved PPTX to Social Media Specialist to schedule and publish.

COMMENTS KEEP THE TASK OPEN

REVIEWERS WRITE COMMENTS

Account Manager, Marketing Manager and the relevant head record actionable feedback.

HOLDER EXECUTES COMMENTS

The accountable task holder implements each comment and records the execution response.

REVIEW AGAIN — THEN COLLECT

Return to quality review and Marketing Manager approval. AM collects only finalized work.

A task being produced is not the same as a task being approved. Revisions reopen the work and invalidate the affected client presentation.

CONTENT / SUBMIT AND REVIEW THE SAME CALENDAR

1 / PRODUCE	Execute the assigned content task from the Account Manager’s brief.
2 / LOG	Submit the work on the task sheet and include its reference/link.
3 / UPLOAD	Upload the working calendar PPTX to Content / the relevant month.
4 / REVIEW IN PLACE	Receive comments on that same calendar PPTX, rather than inventing a separate review copy.
5 / EXECUTE COMMENTS	Address comments and keep the task open until required reviews and approvals pass.

DESIGN & VIDEO / ARCHIVE ONLY THE APPROVED FINALS

EXECUTE & LOG

Create the deliverable and keep its task-sheet record and references current.

QUALITY → MARKETING

Design head reviews design quality. Marketing Manager reviews video quality and supplies final internal approval.

CLIENT → FINAL ARCHIVE

AM collects one presentation for client approval. After internal and client approval, put final copies in the monthly Design or Videos folder.

A Design or Video draft is not a final archived copy. The draft-review location has not been specified; this deck does not invent one.

THE HANDOFF / SHEET, CALENDAR, FINAL FILES

TASK SHEET	Who owns the task, its progress, dates, notes, comments and deliverable references.
CONTENT CALENDAR PPTX	The same working calendar carries content review comments and revisions.
FINAL DESIGN / VIDEO FOLDERS	Monthly final copies only, after internal approval and final client approval.
ACCOUNT MANAGER	Tracks execution, gathers finalized work into one PPTX and secures client approval.
SOCIAL MEDIA SPECIALIST	Receives the approved calendar/presentation to consolidate, schedule and publish; reports results and handles page comments.

SOCIAL MEDIA SPECIALIST / PRIVATE-LABEL OPERATIONS

CALENDAR CONTROL

Gather all private-label calendars and consolidate publishing requirements.

STRATEGY

Create social strategies informed by the account objectives and audience insights.

REPORTING

Create performance reports and social listening reports.

PUBLISH & SCHEDULE

Receive the client-approved PPTX, schedule calendars and publish approved content.

COMMUNITY REPLIES

Reply to comments on the private-label pages.

FEEDBACK LOOP

Return performance and listening findings to the Account Manager and Marketing Manager.

TASK SHEET / THE STRUCTURE BEHIND THE WORK

ASSIGNMENT

Date · Account / private label · Task / content · Task brief · Priority · Task holder

EXECUTION

Status · Deadline · Start date · End date · Deliverable link

REVIEW & REVISIONS

Reviewer notes · Task-holder notes · Creative file · Revision / edits file

FOLLOW-UP

AM reminders and execution monitoring; Daily Finished Tasks are an activity log, not approval evidence.

STATUS LABELS / KEEP APPROVAL EVIDENCE SEPARATE

Not started / In progress	Work stage: queued or executing.
In review / Under review	Review is pending. The reviewer and review layer must be recorded.
First approval / Final approval	Existing workbook labels. Do not infer the approving actor or client authorization from the label alone.
Rejected / Edits needed / Needs editing	Task remains open; record author, comment, owner response and re-review.
Done / Published / Hold	Done is completion, Published is execution, Hold is a pause. None replaces approval evidence.

01 / DISCOVER

Understand before you act.

ACTIVITIES

Business discovery & goals
Stakeholder interviews
Brand audit
Customer interviews
Competitor analysis
Market research

SOURCE DELIVERABLES

Business Discovery Report
SWOT analysis
Growth opportunities map
Competitor landscape

PROPOSED POSITION OWNERSHIP

MM-01 leads discovery; AM-01 coordinates client inputs. BD-01 and SA-01 transfer discovery notes and agreed commercial scope. Content / design leads contribute audit evidence.

EXIT / NEXT HANDOFF

Complete discovery pack, confirmed objectives and available source assets. Marketing Manager reviews the findings before diagnosis.

02 / DIAGNOSE

Find out why growth stalls.

ACTIVITIES

Positioning & brand
Product & offer
Funnel & website
CRM & sales process
Marketing & media efficiency

SOURCE DELIVERABLES

Growth Diagnosis
Priority Matrix
Quick Wins list

PROPOSED POSITION OWNERSHIP

MM-01 leads diagnosis; MB-01 and SM-01 contribute channel evidence; SA-01 contributes sales-process insight; AM-01 attends meetings, writes briefs and resolves information gaps.

EXIT / NEXT HANDOFF

Agree priority constraints and their supporting evidence. Missing website / CRM expertise is assigned explicitly rather than assumed.

03 / DESIGN

Design the solution before building it.

ACTIVITIES

Brand strategy
Content strategy
Media strategy
Customer journey
KPI framework
Budget allocation

SOURCE DELIVERABLES

The Growth Blueprint™
One agreed plan linking strategy, channels, KPIs and budget

PROPOSED POSITION OWNERSHIP

MM-01 owns strategic and budget decisions. HC-01 shapes content; HD-01 shapes creative; MB-01 shapes paid media. AM-01 coordinates client agreement.

EXIT / NEXT HANDOFF

Blueprint accepted, scope and resource owners agreed, required client authorization recorded and budgets authorized. Design means planning; creative production belongs in Deploy.

04 / DEPLOY

Execution with precision.

ACTIVITIES

Website & landing pages
Branding & creative
Paid campaigns
Social media & content
CRM & automation

SOURCE DELIVERABLES

Live campaigns & content calendar
Tracking & analytics setup
Automation & lead routing

PROPOSED POSITION OWNERSHIP

AM-01 coordinates delivery. HC-01 / writers produce content; HD-01 / GD-01 / GD-02 / VE-01 / VE-02 produce creative. Marketing Manager reviews video quality. SM-01 publishes; MB-01 activates paid media.

EXIT / NEXT HANDOFF

Head QC → Marketing Manager approval → AM collects one PPTX → client approval → SM scheduling/publication. Paid activation also requires budget authorization and tracking QA. Website / CRM / automation owner must be assigned.

05 / OPTIMISE

Improve with data — every week.

ACTIVITIES

Weekly & monthly reporting
Live dashboards
Heatmaps & behaviour analysis
A/B testing
Conversion rate optimisation (CRO)

SOURCE DELIVERABLES

Performance reports with recommendations
Optimisation log
CPL, CPM & ROAS improvement targets

PROPOSED POSITION OWNERSHIP

MB-01 analyzes and optimizes paid media; SM-01 reports organic performance; AM-01 delivers client reports; MM-01 reviews priorities and coordinates next actions.

EXIT / NEXT HANDOFF

Validated reporting and a documented test / change log. Feed findings back to Diagnose / Design. Weekly cadence comes from the source deck; exact SLAs require confirmation.

06 / SCALE

Scale what works.

ACTIVITIES

Scaling budget behind winners
Scaling into new markets
Scaling new channels
Retention & loyalty
Expansion & new revenue lines

SOURCE DELIVERABLES

Scaling plan
Expansion roadmap
Sustainable growth objective

PROPOSED POSITION OWNERSHIP

MM-01 leads scaling decisions; MB-01 proposes channel expansion and budget changes; AM-01 coordinates scope and client agreement. BD-01 / SA-01 support new commercial opportunities.

EXIT / NEXT HANDOFF

Evidence supports expansion; authorized budget and revised scope are recorded. New markets / channels re-enter Discover. Sustainable growth is an objective, not a guaranteed result.

WHERE THE TASK WORKFLOWS FIT

PRE-ENGAGEMENT

Growth Score™ / Audit™ → scope and commercial close

BD-01 / SA-01; strategic input MM-01

DISCOVER → DESIGN

Client onboarding, discovery, diagnosis and Growth Blueprint™

AM-01 coordinates; MM-01 leads; specialist leads contribute

DEPLOY

Social post · Video reel · Monthly calendar · Carousel · Paid campaign

Content / Creative QC → client authorization → SM-01 / MB-01

DEPLOY ↔ OPTIMISE

Client revision · Urgent request

Route back to the correct stage; changed strategy returns to Design

OPTIMISE → SCALE

Performance report → evidence-led expansion decision

Channel specialists → AM-01 → MM-01; budget and scope gates

ONE SYSTEM. INDUSTRY-SPECIFIC MODULES.

HEALTHCARE GROWTH MODULE™

Patient journey · Medical authority
Appointment funnel · Referral system

REAL ESTATE GROWTH MODULE™

Buyer journey · Lead scoring
CRM · Sales pipeline

HOSPITALITY GROWTH MODULE™

Reservation funnel · Reviews
Loyalty · Retention

LUXURY BRAND MODULE™

Brand experience · Storytelling
Community · Premium positioning

THE CONNECTED PMP GROWTH ARCHITECTURE

OPEN THE RELATIONSHIP

Growth Score™ + Audit™
Discover needs; qualify the opportunity.

PLAN THE ENGAGEMENT

Growth Blueprint™
Align strategy, channels, KPIs and budget.

LEARN & COMPOUND

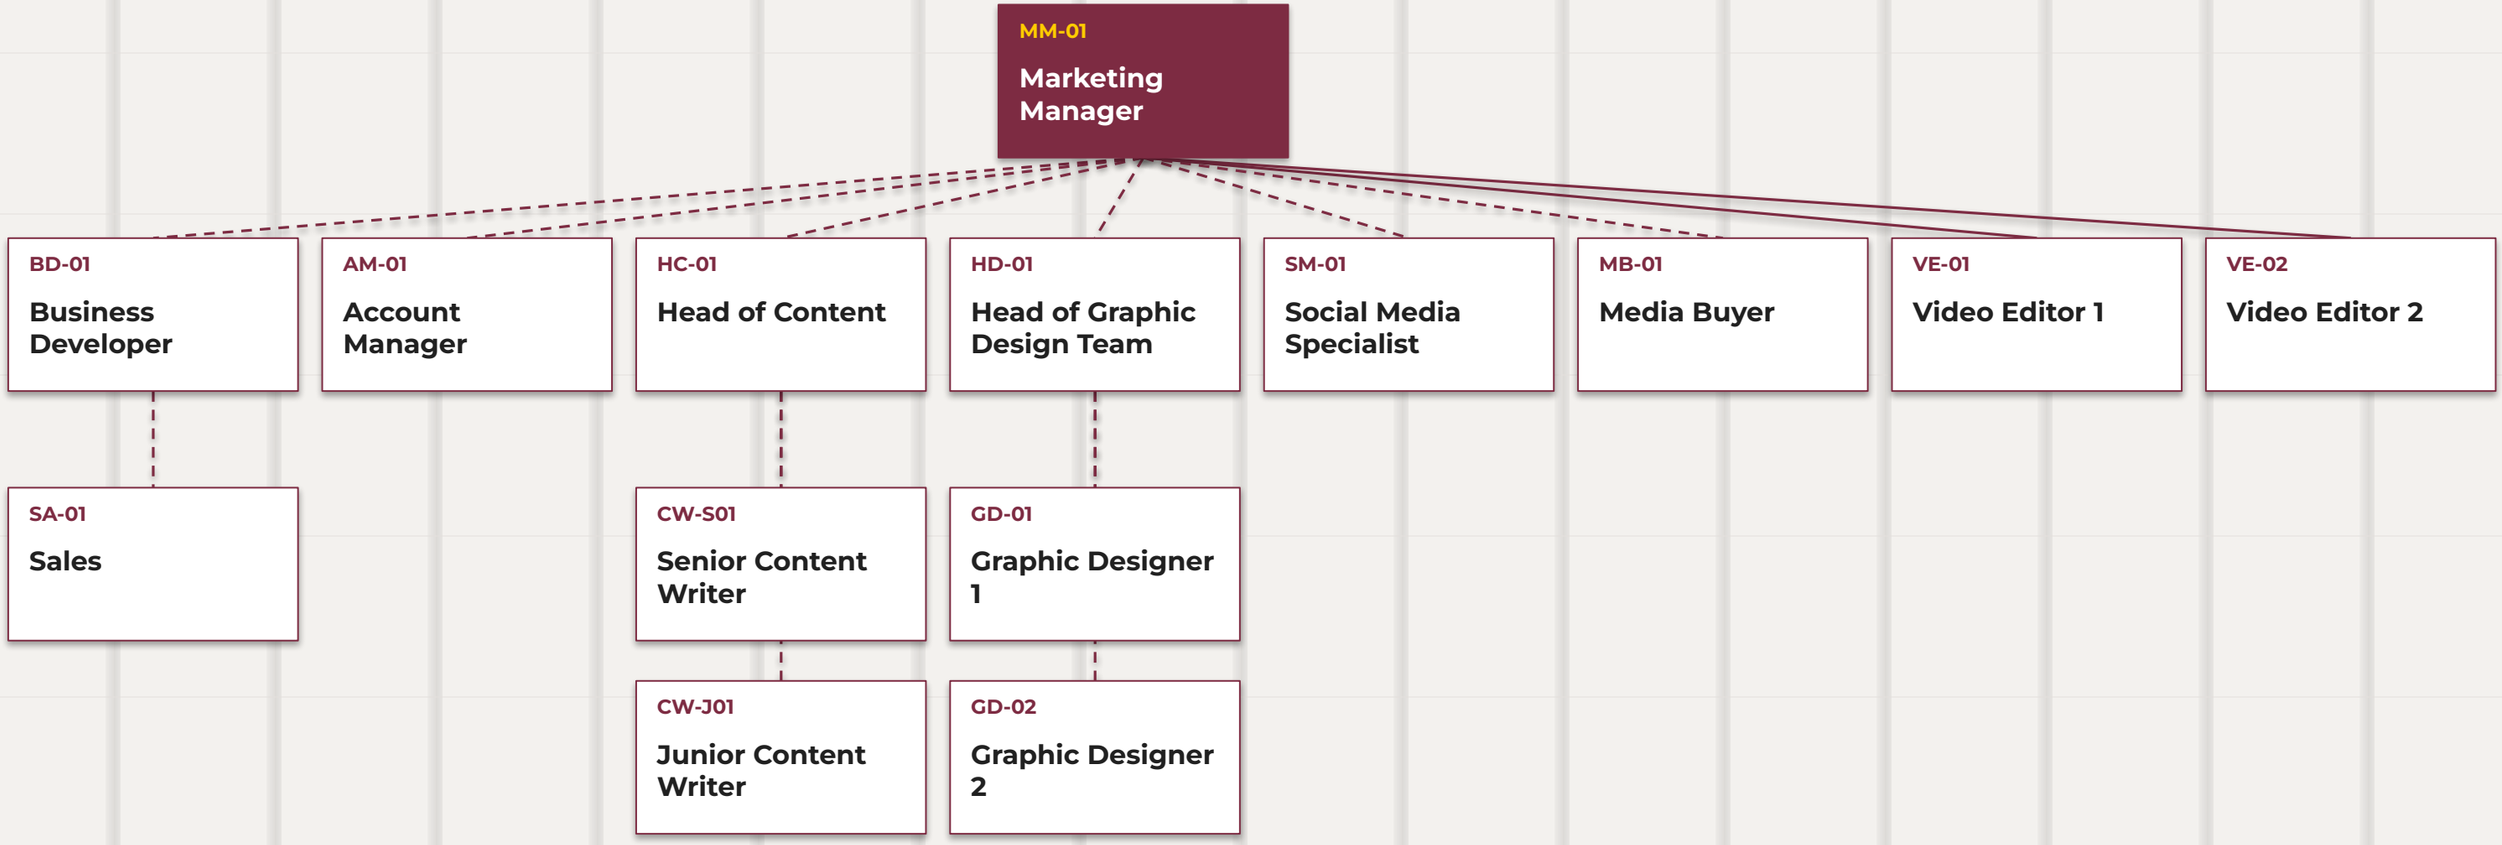

Dashboard™
Measure, optimise and inform scale.

GROWTH OS™ / Discover → Diagnose → Design → Deploy → Optimise → Scale

Playbooks™ make execution repeatable. Academy™ develops team capability across every stage.

THE TEAM / PROPOSED REPORTING MAP

Solid = confirmed; dashed = proposed line management. Video Editors 1 & 2 → Marketing Manager (confirmed by user). Click a position to open its role card.

BACK TO TEAM MAP

FIVE CONNECTIONS. FIVE DIFFERENT MEANINGS.

REPORTS TO	Formal line management. Coordination does not imply authority.
HANDOFF TO	Accepted output moves from one accountable owner to the next.
COLLABORATES WITH	Peer cooperation without implied managerial power.
APPROVAL BY	Independent review before the next execution gate.
ESCALATES TO	Proposed resolution path; automatic escalation is off.

DEPLOY / PARALLEL PRODUCTION & SHARED GATES

APPROVED BRIEF

Account Manager → Content lead

STATIC / CAROUSEL

Writer → Content QC → Designer → Design QC

VIDEO / REEL

Script approval → Footage → Editor → Marketing Manager quality review

CLIENT AUTHORIZATION

Account Manager collects Marketing-approved work into one PPTX; client approves it before publishing

MISSING INPUTS? Hold the handoff. Record the blocker, request assets, and forecast downstream impact.

NESTED DELIVERY / NINE WORKFLOW TEMPLATES

01 / CLIENT ONBOARDING

BD-01 → SA-01 → AM-01 → BD-01 → SA-01 → AM-01 → HC-01 → HD-01 → MM-01 → AM-01 → SM-01

02 / SOCIAL MEDIA POST

AM-01 → CW-J01 → HC-01 → GD-01 → HD-01 → MM-01 → AM-01 → SM-01

03 / VIDEO REEL

AM-01 → CW-S01 → HC-01 → VE-01 → MM-01 → AM-01 → SM-01

04 / PAID CAMPAIGN

AM-01 → MB-01 → MM-01 → HC-01 → HD-01 → MM-01 → AM-01 → MB-01

05 / MONTHLY CALENDAR

SM-01 → AM-01 → CW-J01 → HC-01 → HD-01 → MM-01 → AM-01 → SM-01

06 / MULTI-SLIDE CAROUSEL

AM-01 → CW-S01 → HC-01 → GD-02 → HD-01 → MM-01 → AM-01 → SM-01

07 / CLIENT REVISION

AM-01 → GD-01 → HD-01 → MM-01 → AM-01 → SM-01

08 / PERFORMANCE REPORT

SM-01 → MM-01 → AM-01

09 / URGENT CLIENT REQUEST

AM-01 → HC-01 → HD-01 → MM-01 → AM-01 → SM-01

APPROVALS ARE GATES. NOT DECORATION.

01 / INPUTS

Do not hand off incomplete inputs or unresolved dependencies.

02 / INTERNAL QC

Writers → Head of Content. Designers → Head of Design. Editors → Marketing Manager.

03 / CLIENT

Marketing Manager approves after quality review. Account Manager presents one collected PPTX for final client approval.

04 / EXECUTION

Organic: publication authorization. Paid: budget approval + tracking QA.

REJECT. EXPLAIN. RETURN. IMPROVE.

01 / SUBMIT

Owner supplies the artifact, brief reference, files and acceptance checklist.

02 / REVIEW

Independent reviewer checks accuracy, brand consistency and completeness.

03 / REVISE

Actionable feedback returns work to its proper owner; record a revision event.

04 / RESUBMIT

Owner executes every comment. Head quality and Marketing approvals repeat; revised PPTX returns to client when needed.

EXAMPLE: Correct the promotional price to match the approved brief, then resubmit to Design QC.

MAKE THIS DECK YOUR WORKING TOOL

EDIT THE CONTENT

Click any title, role field or label and type. All core content is native PowerPoint text.

RESHAPE THE ORGANIZATION

Move role cards and adjust connectors. On the map, use Selection Pane to select overlapping objects.

CONFIRM THE POLICY

Reporting lines, approval authority, SLAs and other reporting remain proposed until PMP confirms them.

KEEP THE BRAND CONSISTENT

Use the six supplied palette colors. Install Montserrat and Bebas Neue for the intended typography.

BRAND TOKENS / DIRECTION 01

Deep Burgundy / #7D2B42

Pure White / #FFFFFF

Rich Charcoal / #202020

Mustard Yellow / #FFCC00

Light Gray / #D5D5D5
